TECHNICAL SUMMARY

- **Expert knowledge in variety of Cisco Routers/Switches & Firewalls** including ISR 4000, ISR 1000, ASR 1000, NCS 5000, NCS 5500, ASR 9000, Catalyst 2960, Catalyst 3550, Catalyst 3560, Catalyst 3750, Catalyst 4850, Catalyst 4500, Catalyst 6500, Nexus 5000, and ASA 5500.
- **Highly proficient with numerous networking protocols** such as SNMP, BGP, OSPF, GRE, DMVPN, EIGRP, MPLS, EtherChannels, HSRP, 802.1x, and site-to-site VPN.

RELEVANT PROFESSIONAL EXPERIENCE

Network Engineer | Kavaliro & C4 Planning Solutions | USSOUTHCOM - Doral, FL | **FEB 2019 – PRESENT**

- **Provided Layer 2/3 troubleshooting and support** for an enterprise network of 1000+ users in 25+ remote sites across the US & South America. Responded to multiple on-call requests to resolve critical outages after working hours.
- **Configured and managed a wide array of network appliances** and applications to include Infoblox, Gigamon TAP, F5, Cisco ISE, RSA, ACS, SPLUNK, VMWARE, Cisco ASA, Cisco Prime Infrastructure, and Websense. Personally, reconfigured and upgraded Solarwinds Orion monitoring solution resulting in a 40% improvement in outage response time.
- **Conducted Authorized Service Interruptions** to execute major changes on Cisco network appliances without the need for additional support staff, oversight, or guidance.
- **Maintained network security and mitigated threats** by implementing enterprise-wide configuration changes in response to published Information Assurance Vulnerability Alerts.

Network Administrator | Network Consultant | Martin Funeral Home - Stuart, FL | **JAN 2017 – FEB 2019**

- **Installed and configured Cisco Routers & Switches** for main site in Ft. Stuart and satellite location located in Port St. Lucie. Designed and implemented the IP subnetting scheme for both locations.
- **Deployed, maintained, and upgraded** all aspects of the company's network infrastructure such as DHCP, DNS, VPN, Remote Access, Firewalls, and cloud-based storage. Administered system infrastructure using Windows Server 2008.
- **Simultaneously provided contract-for-hire** consulting services to local businesses and students in Routing/Switching, Windows Server, Microsoft Azure and MS Windows Enterprise Solutions.
